

If you operate off-road and industrial hydraulic equipment, you've been there: a hose breaks in the field, and suddenly you're done for the day. You've heard it before: even at best, you're going to lose many hours of work getting a replacement from the nearest hose shop.

Or that's how it used to be. But with Quick Fix On-Site Hydraulic Hose Kits, you can be back up and running again in ten minutes with a high-quality replacement hose that will let you finish your work and get your equipment back home again.

Nitta's Quick Fix On-Site Hydraulic hose kits are the perfect field repair solution for farming, forestry, construction, and other off-road industries, as well as utility service vehicles.

THE QUICKFIX ADVANTAGE

- Fabricate new hose on-site in 10 minutes
